

The ESC of 2016 . . . A Look Into the Future!

It is no secret that a wildly unpredictable economy and rapid evolutions of technology are changing the landscape of the custom electronic systems industry. In an era where commoditization is aggressively squeezing profit margins and operating costs are rising, the CEDIA member of 2016 will need to adjust their business models quickly to adapt to meet these challenges.

With the truly “connected home” being projected to arrive by 2016 it is more important than ever to learn about the future of the industry and proactively adjust your business plans accordingly. Register today and learn what the future holds for the industry and your business in 2016!
