

ESPMW101 Introduction to Project Management

This course is designed to give an overview of Project Management and to introduce participants to the generally accepted project management knowledge and practices as defined by the Project Management Institute (PMI) in A Guide to the Project Management Body of Knowledge (or PMBOK® Guide).

Upon completion of this course, participants should be able to:

- Define a project
- Define project management
- Identify the components of the project lifecycle
- Explain the concept of project stakeholders
- Identify the nine knowledge areas of project management

ESPM101 and ESPM102 are pre-requisites to all ESPM courses
